Contribute to Citizen Science! Mountaineer Chapter of National Audubon Society Christmas Bird Count

Please submit records of birds seen at your feeders, around your house, or in your neighborhood on Saturday, December 14, 2024

Request for Feeder-Watchers:

We are seeking feeder-watchers to report the <u>maximum</u> number of each bird species present at any one time as a maximum count. (Don't just keep adding chickadees over the entire watch period.) Please also report your <u>location</u> and the <u>number of hours</u> spent watching your feeders.

Eligible count area is within 7.5 miles of the Morgantown Airport. A map of the count area and more information is available at: <u>https://www.mountaineeraudubon.org/cbc-2024</u>

Questions? Contact Christmas Bird Count Coordinator **Derek Courtney** at 304-841-1015 or <u>derek.dana.courtney@gmail.com</u>.
